Patented design

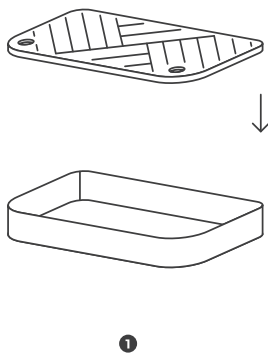

How to Dome

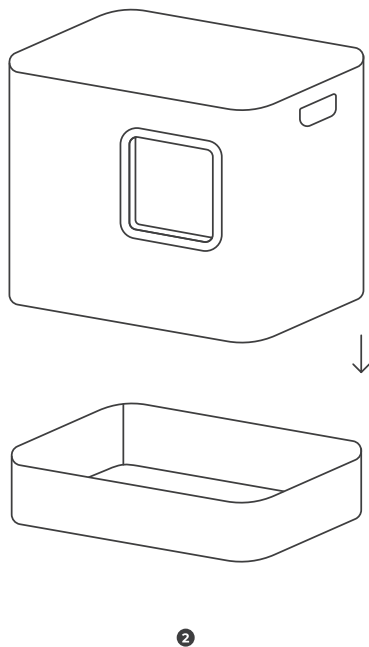

Hoopo®

Hoopo®

How to install

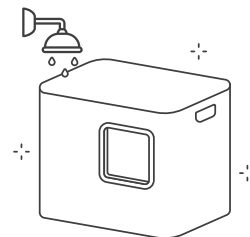

As the picture shows, put the filter plate on the corresponding place.

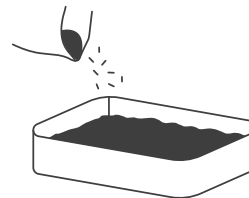

As the picture shows, put the opening side of the cover down and cover it onto the cat litter basin.

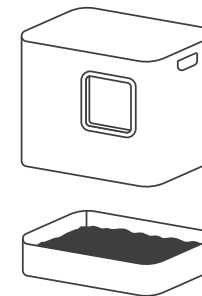

How to use

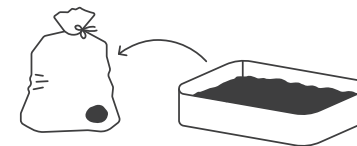

You can wash the cat litter toilet with water directly & dry it naturally. Don't dry it by heating method.

Spread the right amount cat litter evenly into the base basin.

When you clean up the pet feces, lift the cover up and put it on the floor.

You can use a waste bag to store and dispose of the excrement in the trash.
